UDS Number: 060110

Project Description

Jefferson Comprehensive Care System (JCCSI) - Open Hands, an expansion of the Section 330 Community Health Center Program, provides health and support services to individuals who are homeless in Pulaski County.

Services

The clinic, located in downtown Little Rock, is staffed by a part-time physician and full-time family nurse practitioner and provides comprehensive primary health care services, case management, outreach, social services, and eligibility assistance. Mental health, substance abuse, and legal services are provided through referral. A transportation contract provides area-wide access to health services for persons who are homeless. The Section 330 clinic provides dental and other client services.

Linkages

Substance abuse services are provided by Sober Living, and mental health services are provided by Little Rock Mental Health, Inc. Coordination with area shelters enhance outreach services. Linkages with members of the Inter Agency of Pulaski County ensure a wide variety of services and the development of a coordinated system of referral, including Arkansas Supportive Network, King's Outreach, Second Genesis Ministries, VA Drop-In Center, and Florence Crittenton Services. Linkages with an area unit of the Arkansas Dept. of Health ensures well child care, immunizations, family planning, and prenatal care.

Statistics

Estimated homeless population: 4,000 Project users: 1,827
