

Accessing Uniform Data System (UDS) Reporting Guidance Resources on the Electronic Handbooks

## **Resources Available**

Electronic Handbooks (EHBs) house resources to help Health Center Program awardees and lookalikes (LALs) access UDS reports and to help awardees and LALs access the Preliminary Reporting Environment (PRE):

- UDS EHBs User Guide: A step-by-step guide of the process to access, prepare, submit, and revise UDS reports and access standard UDS reports in the EHBs system for Health Center Program awardees and LALs.
- Accessing Standard UDS Reports: Quick reference sheets (QRSs) that describe how to access standard UDS reports from the EHBs system tailored to program awardees and LALs.
- Offline Excel Mapping Tool: A companion file to the offline UDS data Excel template. This tool helps streamline reporting by providing mapped cell locations to data fields. The offline Excel and mapping documents should be used with an Electronic Health Record (EHR) or data system to help in automating the UDS Report. (Note: Offline Excel templates are specific to each health center and are available through EHBs).

## **EHBs Instructions**

To access these resources:

1. Click on Edit or Start from the Pending Tasks List page for the Report you want to work on.
