Instructions

Complete this form for each site where minor A/R activities will occur.

1. Site Control and Federal Interest

If you own the site, select “owned.” If you do not own the site, select “leased,” even if you do not pay a fee to use the property.

If the site is leased, certify that:

- The existing lease will provide you reasonable control of the project site for at least 5 years after the renovation is completed.
- The existing lease is consistent with the proposed scope of project.
- You understand and accept the terms and conditions regarding federal interest in the property (summarized below).

The federal government has a reversionary interest in property that is constructed, acquired, or improved with federal funds. The federal interest is based on the federal share of the total allowable project costs (excluding movable equipment), as a percent of the value of the property after the project is completed.

Federal interest exists for the useful life of the funded minor A/R activities. Since new construction and major A/R projects with a total cost of \$1,000,000 or more are not allowable under this award, you are not required to file a Notice of Federal Interest (NFI). However, if you receive an award and draw down funds, you acknowledge that the federal interest exists, even though you are not be required to file a NFI. You must maintain documentation to track and protect the federal interest. Documentation includes communications between the lessor and the lessee related to protecting such interest.

2. Cultural Resource Assessment and Historic Preservation Considerations

Respond to each of the questions in this section.
