Road Map Federally Funded Support Through Your First Two Years and Beyond

Project Officer

- First line of contact for navigating TA support
- Regular phone and email support and interaction

CONTRACTOR
(only accessible through Project Officer)

- Provide organization-specific, detailed implementation assistance, primarily via on-site TA
- Support peer-learning via "Learning Teams"
- Deliver national training and TA on specific topics, such as risk management

PCA

- Provide state-level translation of national messages
- Assist health centers with implementation of strategies on a local level through statewide training and TA offerings
- Support health centers via one-on-one TA (phone consultations and limited on-site)

NCA

- Deliver broad, national-level training and TA on a range of topics
- Analyze and disseminate national data and information
- Provide national expertise for a given target audience (e.g., health centers serving special populations)
- Support health centers via one-on-one TA (phone consultations and limited on-site)

TA = Technical Assistance
T = Training
